#### THE HORRORS OF ELMIRA.

Judge Cowing sentenced a seventeen year-old prisoner to the Elmira Reformatory yesterday. In so doing the Judge expressed an unwillingness to send the by to that institution while the curse of Brockwayism hangs over it, but ad-vised him to conduct himself properly, "and then," added the Judge, "he will have no excuse to maltreat you.

What a disgrace it is to the State that a tudge on the bench should be forced by his conscience to make such remarks. What a scandal it is to humanity that such a condition of affairs should exist in a penal Institution as to make a just judge dread the cruelties that may be inflicted on a prisoner be is forced to sentence to confinement

For this disgrace and this scandal Gov Flower is alone responsible. Charges pany, for damages for using the portrait of misconduct have been established of his little daughter Ethel in an adveragainst the managers of the Reformatory. The Senate stands ready to consent to their removal on the evidence already obtained and the judgment al ready rendered. But Gov. Flower protects the condemned managers and keeps Brockway in power. His pretense The most vigilant guards were unable at a new trial is a farce. His "request" for the "suspension" of Brockway is a fraud. The new trial means the retention of the managers in office. The "suspension" of Brockway means the continuation of his power over the institution. When a sham suspension was made pending the last trial, Brockhis methods were continued at the Reformatory. The Governor was nubbed and defied then. He will be again. The obstructions and illegal laughed at now by the managers and ondemned by the people whose sentinents and wishes he has disregarded.

# RESCUE OF BATTERY PARK

Some months ago "The Evening World" made an earnest attempt to obtain the removal of all those undghtly obstructions at the sea wall in Battery Park which shut out from the park visitors the view of the bay and the shipping.

There was a dock for an excursion line of steamers; a dock for tugboats; a dock for a Government Post-Office contractor; a dock for the fire-boat New Yorker, besides a private bath strucer, you are prosperous enough so that there than a billiard saloon would have

The Dock Commissioners had usurped authority over the water front and refused to remove the obstructions, on the ground that Battery Park was only used by immigrants and loafers.

Mayor Gilroy, however, sympathized with "The Evening World's" efforts to secure for the park visitors an unobstructed view of the bay, and promised that when the dock leases expired they should not be renewed. He has kept his word, and now it has been determined to remove all the docks unlawfully constructed along the sea wall. Naturally, the private bath speculation will have

#### How to Sew on Buttons. Buttons should be sewed on loosely

the knot of the doubled thread on the right side of the garment under the but ton. A pin with a small button and i darner with a large button should b inserted between the cloth and button when sewing to make the stitches loose, and then, when withdrawn, the thread should be wound around the stitches making a shank for the play of the but ton-hole. Buttons on children's under waists should be especially strong. bit of cotton folded double where th button is to be sewed will prevent tear ing out of the waist itself. Such waist should never be passed through the wringer when washed, but should al ways be wrung by hand. A wringer will break the buttons faster than any amount of wear.

# Stewed Onions.

Many who think they cannot eat onions in any other form would enjoy them if they were properly stewed. After paring the onions, allow them to stand in cold water one hour, then put them in boiling salted water and boil rapidly for five minutes, then change the water; do this twice more, and the onlons when cooked will be more delicate, but they will no doubt have lost some of their valuable properties.

#### Maine's Male Housekeepers. One of the oddities of life in the

Maine factory villages is the class of men who can appropriately be called "housekeepers." In almost any town where much manufacturing is done numbers of these men may be found. If one calls soon after mealtime he will be likely to find them with aprons on washing dishes. At other hours they may be seen sweeping up, making beds, cleaning and washing the children. cleaning house or cooking. Whether any of them do the family sewing is in that direction.
